REQUIREMENTS FOR PUBLICATION IN THE "EDUCATION ALMANAC"

Volume - **3 - 5 full pages**, typed in the MS Word editor (point 14, Times New Roman font, line spacing - 1.5, paragraph - 1.5 cm). The text must be printed on one side of the sheet. Top, bottom, left, right margin - 2 cm. The text is typed without hyphens, across the entire page width. Pages without numbering. You must use double quotes («»). When typing text, you should distinguish hyphen and dash characters.

The publication should contain the following **elements**: relevance, the purpose of the research, conclusions, a list of sources used (they should be highlighted in bold).

Links in the text are drawn up in round brackets according to the model (Machynska, 2022), where the last name is the author of the source, and the year is the year of publication of the work.

The list of references is placed at the end of the text - Times New Roman, width-aligned, drawn up in the form of a numbered list in accordance with the international standard APA (American Psychological Association (APA) Style)

(<http://nbuv.gov.ua/node/929>). Methodological recommendations for the design of literature are posted on the website of the Faculty of Pedagogical Education: <https://pedagogy.lnu.edu.ua/wp-admin/post.php?post=121&action=edit&lang=uk>

Links should be made for each paragraph or sentence that was not written by the author of the work, or in the formulation of which the thoughts and ideas of other authors were used. For a paragraph, the link is given after the final period, for example: (Pasnok, 2017). For a sentence - in accordance with the requirements of the text, for example:

Pedagogical communication is a type of business communication (Pasnok, 2017).

Pasnok G. (2017) notes that the effectiveness of a teacher's professional activity is determined by the level of his communication skills.

If a quote is used in the text, it is necessary to indicate the page number from which the quote is taken. The number is indicated after the year and is separated by a colon, for example:

Pasnok H. (2017: 15) points out that ".....".

Or: Pasnok H. (2017) writes that "....." (15).

If the quote is taken from a web page, it is also necessary to indicate the author and the year (if the year of publication is not indicated, the date the page was updated or revised). If the author is not named in the source, a reference to the name and year is necessary; as the author, you can specify the institution or the owner of the web page.

We note that it does not matter whether the quote is taken from paper sources or from the Internet, the reference to the source must be indicated.

The article must be uploaded to the registration form and sent.

The authors are responsible for the accuracy of the stated facts, quotations and references. The material must be submitted by e-mail.
